 a. declaration                              b. documentation                              c. presentation
18. The way in which different classes of dangerous goods are \_\_\_\_\_ in transport depends upon their properties and hazards.  
 a. dealt                                      b. handled                                      c. measured
19. Annex I Regulations for the prevention of Pollution by Oil, specifies tanker design features intended to \_\_\_\_\_ oil discharge into the sea.  
 a. equalize                              b. maximize                                      c. minimize
20. This is a roll \_\_\_\_\_. Report number of crew members at assembly station.  
 a. call                                      b. gathering                                      c. partying
21. There is no immediate danger to crew, passengers or vessel, and there is no reason to : \_\_\_\_\_  
 a. be alarmed                              b. be happy                                      c. to worry
22. As soon as possible, I will \_\_\_\_\_ another announcement.  
 a. give                                      b. make                                      c. release
23. You can \_\_\_\_\_ an oil slick with booms.  
 a. absorb                                      b. break up                                      c. contain
24. Children must be kept under \_\_\_\_\_ observation.  
 a. permanent                              b. strict                                      c. stable
25. This is to \_\_\_\_\_ that the safety management system of the ship has been audited.  
 a. certify                                      b. registry                                      c. valid
26. Attention should be paid to all \_\_\_\_\_ materials in the machinery space.  
 a. combustible                              b. combustion                                      c. ignited
27. For \_\_\_\_\_ reasons we request all passengers to go to their assembly stations.  
 a. emergency                              b. safety                                      c. security
28. The officer on watch shall keep the main propulsion plant and auxiliary systems under constant \_\_\_\_\_ until properly relieved.  
 a. audit                                      b. inspection                                      c. supervision
29. The fire area is full of smoke. It's difficult to \_\_\_\_\_ here.  
 a. breath                                      b. breathe                                      c. breathing
30. Rescue vessels are coming to our rescue. They will reach us \_\_\_\_\_ 30 minutes.  
 a. at                                      b. in                                      c. within
31. You must carry a breathing apparatus when entering a(an) \_\_\_\_\_ space.  
 a. closed                                      b. enclosed                                      c. closure
32. Radioactive material can \_\_\_\_\_ ionizing radiation, which presents potentially severe risks to human health.  
 a. admit                                      b. emit                                      c. submit

**D. MATCH THE FOLLOWING WORDS TO MAKE COLLOCATIONS (10x2=20 p)**

*agent, a claim, container, a criminal case, dispersant,  
evidence, a fine, officer, circumstances, the regulations*

• contravene	• oxidizing
• constitute	• relieving
• make	• tamper with
• mislabeled	• impose
• oil	• prevailing

**E. Fill in the blanks with the following words. (11x2=22)**

<b>liquefaction</b>	<b>classification</b>	<b>friction</b>	<b>aviation</b>	<b>rectify</b>	<b>competency</b>	
<b>regulatory</b>	<b>alternative</b>	<b>detentions</b>	<b>banned</b>	<b>threat</b>		

- Shipping is a more environmentally friendly mode of transport compared to \_\_\_\_\_
- As per IMSBC code on solid bulk cargo, carrying nickel ore (Group A) poses the risk of \_\_\_\_\_
